

VIDEO CONFERENCE ETIQUETTE FOR STUDENTS

Remote learning is relatively new to all of us at HWCOC, and a successful Zoom Lecture will depend on the same commitment and professionalism we all bring to the physical classroom. Please have patience if technical glitches occur, and follow the same standards of behavior online that would apply in real life.

Do this:

Be punctual and test your webcam and audio ahead of the session.

Mute your microphone when you're not presenting and make sure your webcam is turned on.

Have a back up device like a tablet or cellphone available in case you experience technological issues.

Be attentive and mindful of the presenters participation expectations for the session.

Don't do this:

Dress inappropriately.

Log into a remote session from a mobile device, especially while driving.

Engage in unrelated, side-discussions with classmates.

Post memes or make inappropriate comments in the chat box.
